

State-of-the-art treatment of aortic dissection

Prof. Dr. Karl-Heinz Orend, Department of Thoracic and Vascular Surgery,
University Hospital Ulm

UNI-MED Science, 1st edition 2014, 56 pp, 25 illustrations, Hardcover, ISBN 978-3-8374-1468-4 (Germany) / ISBN 978-1-84815-220-5 (Rest of the world), Euro 24,80
ePDF-version: ISBN 978-3-8374-5468-0, Euro 24,80

Aortic dissection to date is still a big challenge for everyone involved in regard to patient risk and therapeutic consequences, despite significant expansion and improvement of both diagnostic and treatment options in recent years. The recommended guidelines of modern treatment concepts are based on years of personal experience as well as numerous reports and communications from the recent literature.

This reference book was designed to help avoid diagnostic aberrations and serve as a guide to a differentiated, individualised treatment concept for dissection patients.
