

Treatment of Multiple Sclerosis

Norman Putzki and Hans-Peter Hartung

UNI-MED, 2nd edition 2011, 112 pp, 15 illustrations, Hardcover, ISBN 978-3-8374-2199-6, Euro 4,95

ePDF-version: ISBN 978-3-8374-6199-2, Euro 4,95

In Europe and the US more than a million people suffer from Multiple Sclerosis. The updated and revised second edition of this book covers a broad range of topics such as basic immunology, clinical features, disease modifying MS therapies and the management of MS symptoms.

A team of well-respected international experts offers an abundance of evidence from research and clinical trials and provides state-of-the art knowledge on the treatment of Multiple Sclerosis. This book is a helpful aid for decision making in everyday practice for neurologists who treat patients with MS.
